

MOHIUDDIN AMANULLA CHISHTY

SeniorDataScientist | MLEngineer | AISolutionsArchitect

• Bengaluru, India • amanullachishty@gmail.com • +91 9731810527

PROFESSIONAL SUMMARY

Results-driven Senior Data Scientist with **7+ years** of experience delivering enterprise-scale AI/ML solutions across healthcare, finance, and industrial IoT. Proven track record of improving forecast accuracy by **13%**, reducing runtime by **15%**, and building conversational BI platforms serving 500+ analysts. Expert in LLMs, cloud architecture (AWS/Azure), and full-stack ML deployment with strong business acumen for translating complex data insights into strategic outcomes.

PROFESSIONAL EXPERIENCE

Data Scientist

CitiusTech

Apr 2025 - Present

Bengaluru, India

- Architected full-stack Conversational BI platform using AWS Bedrock (Claude 3.5 Sonnet) and LangChain, enabling **500+ business users** to generate insights via natural language queries
- Integrated AWS data pipeline with Athena and Glue catalog, achieving real-time query processing across petabyte-scale data lakes
- Implemented enterprise-grade security, cost tracking, and intelligent caching, reducing query costs by **40%**
- Delivered self-service analytics eliminating SQL dependency for executive reporting and strategic decision-making

Tech Stack: Python, LLM, Anthropic Claude, AWS, MS SQL, Redshift, DBT, Athena, Streamlit, AWS Bedrock

Lead Data Scientist

Infosys Limited

Jul 2021 - Apr 2025

Bengaluru, India

- AI Governance & Risk Classification:** Spearheaded enterprise AI Management System with IBM WatsonX, leveraging LangChain and LLMs for intelligent risk assessment and compliance automation
- Designed FastAPI-based microservices and custom Python packages, enhancing risk transparency by **35%** and process efficiency

Tech Stack: Python, LangChain, LLMs, WatsonX, FastAPI, XGBoost, SQL, Azure

Data Engineer (Consultant via Infosys)

Nike

Jul 2021 - Jun 2024

Bengaluru, India

- Demand Forecasting (APLA WorkBench): Built ML solution improving inventory forecast accuracy by **13%** using XGBoost and advanced feature engineering
- Optimized ETL workflows with Apache Airflow and Snowflake integration, reducing pipeline runtime by **15%**
- Led international deployment in Vancouver, Canada, managing end-to-end server migration and stakeholder coordination

Tech Stack: Python, XGBoost, SQL, Pandas, NumPy, Apache Airflow, Snowflake, Azure

Full-Stack Developer

Thingstel Tech Solutions

Aug 2020 - Jul 2021

Bengaluru, India

- Developed Industrial IoT Platform for Digital Twin visualization, deployed across Android and iOS using React Native
- Built predictive maintenance ML models for industrial machines, preventing **\$200K+** in potential downtime costs
- Automated data analytics pipeline using Python and AWS IoT, processing 10M+ sensor data points daily

Tech Stack: React, Python, JavaScript, React Native, AWS, MS SQL, HTML5, CSS3

Software Developer

Blugate Software Technologies

Dec 2018 - Aug 2020

Bengaluru, India

- Developed responsive web applications (Agileware, ParkingPerx) using React JS, Python, and REST APIs
- Built dynamic query builders and visualization dashboards improving user engagement by **25%**

Tech Stack: React, Python, JavaScript, MS SQL, HTML5, CSS3, Git, AWS

CORE SKILLS

Programming & ML

Python, SQL, JavaScript, Pandas, NumPy, Scikit-learn, XGBoost, PyTorch

AI & LLMs

LangChain, Claude 3.5, GPT, RAG, Prompt Engineering, NLP, Computer Vision

Cloud & Data

AWS, Azure, Snowflake, Redshift, Athena, Apache Airflow, DBT

Visualization & BI

Tableau, Power BI, Plotly, Streamlit

Development

React, FastAPI, REST APIs, Git, Docker, Microservices, MLflow

EDUCATION

MTech in Data Science and Machine Learning

PES University

2020 - 2022

B.E in Mechanical Engineering

Bangalore Institute of Technology

2014 - 2018

CERTIFICATIONS

🏆 AWS Certified Solutions Architect

🏆 Python Programming Certified

🏆 MySQL Certified Administrator

🏆 Certified Data Analyst

🏆 Open Chain Practitioner

KEY ACHIEVEMENTS

- ★ International Project Leadership: Vancouver, Canada deployment
- ★ Active Kaggle & HackerRank contributor with multiple badges
- ★ AI Innovation Recognition for risk mitigation solutions
- ★ Full-stack expertise spanning ML to production deployment

DOMAIN EXPERTISE

Healthcare Analytics, Industrial IoT, Demand Forecasting, Conversational AI, Business Intelligence
